# EUROASIA WORKSHOP

Greater Middle East & Central Asia

*Let's Meet Where the Continents Meet!*

**March  
04 - 06, 2019  
Istanbul**

Organized by

**YEDAB**

Yurtdışı Eğitim Danışmanları Derneği  
Association of Study Abroad Counselors

**Agent Workshop  
Greater Middle East & Central Asia Focus**

## EuroAsia Workshop

- ❖ Let's Meet where the Continents Meet.
- ❖ Connect with the International & Regional Focused Educators
- ❖ 3 nights complimentary accommodation at Hilton Istanbul Bosphorus or another luxury hotel nearby (*1 person on FB single room*)
- ❖ Bosphorus boat trip and entertainment
- ❖ Fam trip to Turkish Universities in Istanbul
- ❖ Istanbul city tours

*All free for agents!*

## IEFT TEAM

## YEDAB BOARD OF DIRECTORS

## How do we pre-screen the agents?

With 20 years of experience in this field, we strongly believe that we have the professionalism to serve this business properly. Moreover, our strong political bonds and cultural similarities give us the magnificent power to be able to do business efficiently and effectively with the majority of international educators and recruitment agents in the regions of the Middle East and Central Asia. Besides this, we already have a strong profile of international educators in the global arena and recruitment agents in the GME and CA numbering enough to organize an event for both of them in the magnificent city of Istanbul.

The target agents are carefully screened in terms of their years of experience, reputation, the quality of the services they provide to their clients (references), attractiveness in terms of marketing, and the amount of business they generate per year. We also consider some new agents by observing their development in the market via their websites and checking their participation at educational events.

## The selection process

When our team invites a potential agent to the EuroAsia Workshop, they consider the following key information in order to provide you with a high-quality service;

- ❖ Company background (year of establishment, number of branch offices, contact details, employee information)
- ❖ Detailed official registration circumstances
- ❖ Number of students served per year
- ❖ Four references from school partnerships who have strong business relationships with the agent
- ❖ Detailed information on promotional and marketing strategies
- ❖ Marketing and promotional materials
- ❖ Accreditation by a relevant unit
- ❖ Signed terms and conditions in compliance with EuroAsia Workshop and YEDAB standards

## AlBaghdadi Expert For Marketing Services

Turkey

Mr.

Mohamed

ALBAGHDADI

Founder/Gm Istanbul Office

Website :

-

E-Mail :

info@albaghdadi.com.tr

## Profile Description:

About Us AlBaghdadi Expert For Marketing Services, is one of the leading professional companies providing best consultancy, utilizing the opportunity students seek helping them have access to the best education in the top class Universities and Colleges around the world. The long experience gave us the power, knowledge and the ability to give expert advice and provide the best

**AlBaghdadi Expert For Marketing Services**

services to continue to be one of the best educational consultants in our field. Believing that education is essential as the core of a great career and self improvement; our main target is helping bring the best universities and Colleges to the students who have the ambition and willingness to pursue education abroad and prosper. We aim to attract the students who desire to study the English language, Bachelors, Masters and PhD degrees of any specialization in more than 250 Universities and Colleges in 13 countries. We manage and provide complete services as best suit the students' needs, covering all the services needed starting from selecting the university and/or College, preferable country, field of study, VISA application, applications and admission approval, and accommodation to make it easier for them to achieve their goal. Our History AlBaghdadi Education was established in 1962 as one of the few consultants providing best educational services. It was established in Jordan and covered the Universities and Colleges in Jordan, Syria, Lebanon, Palestine and Egypt. In 2001, Expert For Marketing Services established as an expansion of AlBaghdadi Education, located in Saudi Arabia, covering Universities and Colleges in the United States of America, the United Kingdom, Canada, Australia, New Zealand, Ireland, Jordan, Egypt, Malaysia and Turkey. In 2019, another branch was established in Istanbul / Turkey known as AlBaghdadi Expert For Marketing Services and again another success story to achieve our vision which has begun in 1962. Today, AlBaghdadi Expert represent over 250 Universities and Colleges in 13 countries around the world. Our team AlBaghdadi Expert consultants' team is the top leading team which remains forefront of their field, and are the best qualified experts giving guidance to the students. Utilizing the long years of experience and knowledge to provide the Students/Parents with the best educational consultancy. Our Vision To remain one of the leading, most trusted companies and provide the educational and the career consultancy needed, covering many regions and continue expanding around the world. Our Mission To create a world where every student is empowered and gets the right access to top class education around the world. Our Services The more we know about you, the more power we have to help you choose the best field of education and the right University and/or College to achieve your goals. - Consultancy and recommendations on market specialties shortage as needed. - Recommendations on the best Universities and/or Colleges providing the desired field of education. - Preparing the applications and approvals needed for acceptance in the designated University and/or College. - Providing VISA Preparations. - Providing Health insurance policies. - Providing traveling and transportation services. - Providing dorm/homestay accommodations. - Conducting one to one Interviews workshops with the Universities and colleges. - Creating exhibitions for universities, Colleges and the students. Why AlBaghdadi Expert? Our main competitive advantage is working from the heart. We care to provide the best services, yet our main interest is to guide school graduate students with what best suits them, and help them realize what they really need and how to achieve it. Each student is a valued individual who we care about, therefore we provide the best consultancy, guidance, and career consultation based on the personality, goals and interests in life. We also aim to fulfill the educational needs and the individual interests and passion pursued hand in hand with the studies to cover all the needs and aspects to achieve what is needed. We encourage pursuing the passion and hobbies; like music, sports and reading, believing it is a major combination for students to evolve in the best ways; mentally and spiritually. We hereby declare that education and hobbies would generate the best results for each student.

**Website:** www.goandstudy.az**E-Mail :** chingiz.asgarov@goandstudy.az**Profile Description:**

We are local study abroad company headquartered in the capital of Azerbaijan Baku. We are representative office of several universities from allover the world. We send potential Azeri students to that universities.

**Go And Study**

Mr.

Shokhrukh

BOBOKHOLOV

*Owner/Founder***Website:** www.go-study.uz**E-Mail :** info@go-study.uz**Profile Description:**

We are the organization in Uzbekistan with 2 branches in key regions. We specialize in recruiting students all over Uzbekistan to study in foreign countries. We also have our education centre which with more than 2000 students studying English and IELTS especially. Most of our students are potential candidates to study in foreign countries.

**Go Study**

Mr.

Priteshkumar

PATEL

CEO

**Website:** www.gocoolgroup.com**E-Mail :** director@gocoolgroup.com**Profile Description:**

I am taking this opportunity to introduce you ""Gocool International"" with 17 years' of vast experience in foreign education consultancy. We have our Corporate Office in Gujarat (Anand),INDIA and also has established our PAN India presence with over 10 branches across India. Our consultancy specializes in Canada

**Gocool International**

International Education and we presently representing most of the major SPP Colleges & Universities in Canada and possess an experienced team of counselors and faculty having capability, professionalism and team work to the highest level of a Foreign Educational Consultancy. The staff have been successful to confirm their exceptional qualities as a true counselor, recruiter, and motivator for the students thereby being of great support towards recruitment of international students for foreign education from India. Subsequent to strict implementation of all the above activities, the Gocool Team have been successful to confirm their exceptional qualities as a true counsellor, recruiter, and motivator for the students thereby being of great support towards recruitment of international students for foreign education from India. Also we have been able to presently represent most of the major P Colleges & Universities in Canada and to figure out in the Jan, May & Sept 2018 Intake respectively we could successfully recruit the following students for various Universities apart from good number of students for the Colleges:

- 1) Bow Valley College - 54 Students
- 2) Lakehead University - 12 Students
- 3) KPU - 57 Students
- 4) VIU - 03 Students
- 5) Univ of Regina - 32 students
- 6) Sheridan College - 108 students
- 7) Georgian College - 98 students
- 8) Fanshawe College - 112 students
- 9) Northern College - 137 students
- 10) Humber College - 42 students
- 11) Columbia College - 15 students
- 12) St. Clair College - 227 students

We are also one of the top performers of International College of Manitoba for Indian Applications (104 Fees Payment just for Jan 2018 intake). You can take our reference from Lindsay Fenwick as well as Fadi Toma both working as Marketing Manager at ICM. Although we represent some of the very good colleges, the number of admissions or seats are limited and hence we are in the process to opt for another college/ Universities which can provide specialized courses to our students. Your institution has always been the preferred choice for the group of Students all over the World because of the courses offered and the location of the institution along with its reputation. Proposal for Agent Representation Hence I hereby submit the proposal on behalf of my company Gocool International to represent your institution and actively promote by recruiting quality students from our PAN India presence. Also I would like to highlight that as emphasized earlier we are representing almost all the good Colleges/ Universities of Canada and the following College/University delegates have expressed their consent to refer Gocool International with their valued feedback to your esteemed institution for agent enlistment please:

1. Samina Kuwajerwala - Georgian College Regional Manager - South Asia, Middle East & Africa email: Samina.Kuwajerwala@georgiancollege.ca Ph: +17057967333
2. Thomas William Reimer University of Regina, International Recruitment Specialist Email id - thomas.reimer@uregina.ca Contact No - 001-306-337-2507
3. Saurabh Malhotra - Fanshawe College Fanshawe College India Representative email : smalhotra@fanshawec.ca

Phone : 91-9999907211 It is requested that the proposal be considered and assure you that once entrusted with the Agency, we would thrive in to come up to the expectations of the Institution and will actively promote the Institution to the desired level.

Please do provide us with the Agent Agreement as per your existing norms and guide us to complete any other formalities towards this. Also, we would like to express our consent to work with you on any of the model/format as considered deemed by your Organisation. Educationally Yours,

## Profile Description:

"We are a team of young, dedicated passionate and growth hungry experts" Established in 2006 Satisfied Clients 2k Total Staff 150 The Providers is India's most eminent Visa and Immigration Consultancy Services which specializes in providing visa and immigration services of various countries like USA, Canada, Australia, New Zealand and many more countries around the globe. The Providers lay with a small idea that inception in the mind of its promoters in the year 2005,

The Providers Education  
Consultancy Services

which they believed had the potential to create a successful platform in the Immigration field and elaborate a very huge business. We have a large client base and thousands of satisfied clients, who are delightful and are today in their world of dreams by fulfilling it. We have a passion to serve our clients with our excellent services. With the increasing count of our satisfied clients, we feel more responsible to provide them with the quality services. We offer complete guidance in making our client succeed in their immigration process. A combination of extensive experience, global presence and extreme industry knowledge enables us to provide solutions that deliver results. With over a decade of experience and established network, The Providers assures one stop resettlement solution to the people interested to study, resettle, or work in few of the most reputed countries like Canada, USA, New Zealand and Australia. We understand our client's aspirations and assist them in choosing the appropriate option from the range of services we provide. The Providers also provide post-landing support through providing Airport pick-up on arrival and transfer from the airport in the destination city. The Providers promise to keep the privacy details not to be disclosed to anyone and keep all your data and records totally safe. It also gives proper counselling procedure before registration for Immigration as well as placement purpose. The Providers gives the simple and detailed terms & conditions due to which it is easy to complete paperwork. It also provides the proper guidelines regarding all the rules and regulations for applying visa. It provides the best immigration consultants which helps you to achieve your dreams.

**QUALITY POLICY-** • To persistently provide valuable and satisfactory immigration services to our candidate. • To offer clients utmost respect as we attend their needs ethically and persistently. • To respond all generated queries, request and essentials in a professional conduct. • To provide professional advice to all the candidates that will be constructive and productive. • To improve and process our services recurrently so as to seek higher level of excellence. • We act as a bridge between the students and the Universities that helps them to achieve their goals.

**SERVICES** • To fulfil client's dreams and expectations to begin their new and exciting career in a new world. • To nurture the success of our students by providing them best institutions along with excellent facilities in abroad. • To take pride in our commitment to quality, immigration success and customer satisfaction. • To make immigration as smooth as possible. • To maintain transparency in dealings. • To provide step-by-step easy guiding through the process. • To provide quick and smart response to any visa or documentation problems. Our vision is to be the most trusted, convenient immigration service provider and advisor of immigration policies to every person seeking to live in a country where – regardless of their skin colour, ethnicity, sexual orientation or gender identity – enjoys all of the fundamental freedoms enshrined in the Canadian Charter of Rights and Freedoms. Our mission is to provide realistic immigration possibilities and superior quality of service to our clients worldwide, in addition to being an excellent memory of your immigration experience to Canada to your second, third, and future generation."

Marmara Education Institutions, Istanbul Marmara Education Foundation (IMEV) and Maltepe University (MU) were founded in 1991, 1996 and 1997, respectively by Hüseyin Şimsek, the head of the board of trustees of the university, who devised the motto "From Kindergarten to University". The University, which was founded by IMEV in

accordance with law number 4282, is subject to the terms pertaining to the Foundation and Higher Education Institution Law number 2547, and it has the status of a legal entity. In 1997, the university began operations as an academic institution in the buildings provided by IMEV. The Istanbul Marmara Education Foundation, with which the university is affiliated, provides a wide range of learning opportunities in a variety of areas, including health, culture, art, social responsibility and the environment. Hence, IMEV perpetuates the deep-rooted tradition of foundation institutions within Turkish culture and history. In 2002, in an effort to bring together the various academic institutions established by IMEV, the Marmara Education Village (Marmara Eğitim Köyü) was founded on 750,000 square metres of indoor space and 300,000 square

metres of outdoor space in a wooded area of the Maltepe district on the Asian side of Istanbul. The Marmara Education Village campus is home to Maltepe University's Faculties of Education, Humanities and Social Sciences, Fine Arts, Law, Communications, Business and Management Sciences, Architecture and Design, Engineering and Natural Sciences and Medicine as well as the Schools of Nursing, Foreign Languages, Vocational, and the Graduate Schools of Health Sciences, Science and Engineering, and Social Sciences. With the exception of the Faculty of Medicine, located in Maltepe University Hospital in Maltepe city centre, all other degree programmes are held in the Marmara Education Village, including the associate degree, undergraduate, master's degree and doctoral degree programmes. Our university provides education services in 9 faculties, 3 graduate schools, 2 schools and 1 vocational school. The Marmara Education Village Campus is also home to the Marmara Open Air Theatre with a seating capacity for 8,000 spectators. In addition, the campus has two film production studios covering 2000 square metres. "Free in Thought, Modern in Education and Universal in Science" is the motto and summation of the most important principles of Maltepe University. The aim of Maltepe University is to educate students to be competitive with their peers all over the world, to be dynamic, rational, creative, and collaborative intellectuals; to be individuals who are secular, respectful of the rules of democracy and are true followers of the reforms and principles of the founder of the Turkish Republic, Mustafa Kemal Atatürk. Maltepe University puts a great emphasis on internationalisation. With this approach in mind, exchange students and academic members are encouraged to be mobile in the European Higher Education Area and in the world. For this purpose, strong relations have been established and secured with globally recognised universities for collaborative research and scientific studies, and these efforts are gradually increasing in number. Existing international exchange programmes and double major degree programmes are indicators for MU's internationalization approach. In line with this, bachelor degree graduates are given Diploma Supplements as of 2010, while Master's and Ph.D. graduates started to be given Diploma Supplements in 2012. The university has an exclusive and experienced academic and administrative staff, offers programmes updated on a regular basis to follow the developments in the fields of science, technology and art, enjoys a wide range of academic infrastructure and facilities (laboratory, information and documentation centre, internet access, etc.), discloses and shares scientific research with the international scientific community and the public and organises social and cultural events that encourage community participation. On the whole, the academic and cultural atmosphere cultivated by Maltepe University has paved the way for it to be counted as a prominent institution in the Turkish University System and is also a firm evidence of the university's successful achievement in its institutionalisation process.

**Profile Description:**

"We are a co-educational boarding and day school for girls and boys aged 11-19. Set in 40 acres of rolling countryside, the school is situated in the heart of Mickleham Village, close to major road, rail and air links and only 35 minutes from central London. Box Hill School has a long

INSPIRATIONAL  
Box Hill School

heritage of delivering first-class learning in a warm, supportive, holistic and

nurturing atmosphere. For sixty years we have proudly remained a truly independent school. A founder member of 'Round Square' we promote international understanding, democracy, a care for the world around us, a sense of adventure, and the qualities of leadership and service. Excellent academic results are an outcome of a focus on character and we are determined that all pupils should reach their maximum potential in all that they do. We regard each pupil as an individual in every aspect of life at Box Hill School. A combination of attention, personalised learning, support, regular assessment and monitoring underpins Box Hill School's academic tradition. We provide an exemplary education for pupils with a broad range of abilities from Oxbridge candidates, to those who have been labelled as "average" pupils. At Box Hill School no pupil is average; they all excel at something. We cater for the individual with small classes and tutorial assistance providing an ideal environment for all pupils to grow and flourish. At Box Hill School, we are very proud of our breadth of curriculum, our academic success in public examinations, and the excellence of our teaching. Pastoral care is at the heart of everything we do. It is central to every aspect of how the school operates and underpins the focus on encouraging all our pupils to be the best they can be. This responsibility is a shared one across all members of the pastoral team including House Parents, House Assistants, Tutors, School Nurses and the School Counsellor, all of whom are dedicated to ensuring that our pupils are kept safe, well and happy at school. We want every pupil to feel part of our larger Box Hill family within a caring, nurturing environment designed to enable them to develop at their own pace whilst fully supported and encouraged to fulfil their potential. Pupils can participate in a wide variety of sporting activities. Through our sports teams pupils are able to compete against other schools in many sports. Pupils enjoy participating in team sports and take pride in representing the school. But team sports are not for everyone. We also have qualified coaches to instruct pupils in other activities. We aim to provide the most wonderful opportunities inside and outside the classroom so that pupils leave school ready to face the world – with the necessary qualifications and personal skills, confident in who they are and what they believe in. We are certain that they will form great new friendships, often lasting and lifelong, with other pupils who come from all over the world. We will encourage them to be involved in many areas of school life, to do things they never thought they were capable of, and to become leaders both in school and the world beyond. Sixth Form pupils at Box Hill School come from over thirty different countries. The world has become a global village and the leaders of tomorrow will mix freely across continents, talk in multiple languages, and understand and appreciate the customs, ideas, and values of others. Box Hill School's Sixth Form reflects this, providing our graduates with a distinct competitive advantage in the employment world. The appreciation of languages is a component of the IB curriculum, and all IB pupils study at least one foreign language. A Level pupils also become familiar with an enormous range of cultures and languages in our diverse Sixth Form environment. The School encourages an atmosphere that values effort and achievement. We do this by providing the best conditions for learning, and for boarders during homework time, through the maintenance of a supportive and well-disciplined learning environment where pupils have access to staff. Our aim is to enable each pupil to develop, learn and take responsibility for themselves and for others, to respect their environment and become the global citizen of tomorrow.

## Profile Description:

A+ World Academy is one of the most unique international boarding schools in the world. We give 62 11th and 12th grade students as well as gap year students the opportunity to take Advanced Placement courses in a school at sea that travels the globe to more than 20 port cities on the oldest fully-rigged sailing ship in the world. We offer a challenging, rigorous,

A+ WORLD ACADEMY

one of a kind program that develops students into global citizens and leaders with grit, resilience, and perseverance. A+ World Academy students are pushed to their limits in every aspect from intellectual, social, physical, and cultural while learning to be proactive problem solvers with practical experience and a global perspective. While creating strong academic achievement in our students, we engage them in an extensive experiential education program of rigorous maritime endeavor, close-knit communal living, study in foreign lands, and personal mentoring that cultivates their self-knowledge, resilience, problem-solving, and leadership far beyond that of more traditional school setting. Our students don't just worry about getting to class on time, they deal with real issues such as monitoring water consumption from a shared source, recycling's impact on the environment and living in a socially conscious way to dramatically reduce pollution. They will take part in ship "watches" as part of the mariner crew and will participate in scrubbing, cleaning, and sharing the duties on board. Our students develop life skills such as leadership, resilience, grit, accountability, and team work...characteristics that will lead them to success in both university and in life. They overcome challenges on a daily basis that strengthen both their character and confidence. All of this occurs while attending a full load of AP and standard courses that prepares our students for the top universities around the world! What Harvard once called "the X Factor" of unique university applicants, we call the A+ Factor!

and are equipped with all the qualifications required by the business world. With its up-to-date academic programs and training, Yeditepe University offers an education compatible with the expectations of the information age.

Yeditepe University carries out its academic activities via 3 departments at the School of Applied Sciences and 13 faculties namely the Faculties of Dentistry, Pharmacy, Education, Arts and Sciences, Fine Arts, Law, Economics and Administrative Sciences, Communication, Engineering, Architecture, Health Sciences, Medicine and Commerce entailing 67 undergraduate programs. The university also offers 88 MA and 40 PhD programs in the Graduate Schools of Atatürk's Principles and History of Revolution, Educational Sciences, Science, Health Sciences, and Social Sciences. Since its establishment, Yeditepe University, whose language of education is English, has been preparing young people for life from all over Turkey on the 26 Ağustos campus.

Yeditepe University offers education on the "26 Ağustos" campus that is designed to meet the requirements of students for education, culture, art, sports and a spectrum of various needs. The 26 Ağustos campus is located on the Asian side of Istanbul with its own architecture on the skirts of the Kayışdağı hill, with an area of 125 thousand square meters and a closed area of 223 thousand square meters. Inspired by Seljuk Architecture, the 26 August campus consists of educational buildings and social facilities and they are surrounded by two separate student dormitories with a total capacity of 4,250 students. Voted first among private universities in Turkey by Green Metric which is an international platform for sustainability and environmental awareness and determines the greenest universities in the world, Yeditepe University is the only university in Turkey that can produce its own energy with a solar energy system that is built on a roof in the campus. The system, which has the largest roof application facility in Istanbul, has a capacity of 1 MW and used 3850 Axitec panels and a Hawei inverter. At the same time, the university has started work on a wind energy investment of 350 KW in Şile. The solar energy panel works will continue until 10 MW is reached. The entrances to the buildings are through grand portals, some of which have a height of 22 meters. With their well-lit courtyards, these are modern structures with the typical features of Selchuk architecture. The surfaces of the buildings are covered with natural stone brought from Anatolia. To keep cool during the summer and warm during the winter, Ünye stone was used in the facades of the building, and polyurethane for the heat panels.

#### Profile Description:

Social Sciences University of Ankara (ASBU), is research oriented, is dedicated to post-graduate study, acknowledges the importance of international cooperation, prioritizes the most current areas of research, includes the whole world as a field of interest, is enthusiastic to be a leading university in the development of social science education in Turkey, has

**SOCIAL SCIENCES  
UNIVERSITY  
OF ANKARA**

one of the most extensive libraries in Turkey, is multilingual and multicultural, positively contributes to university's surrounding community. ASBU is Turkey's first and only State University in the Field of Social Sciences. ASBU was founded in 2013 in the center of the capital of Turkey in order to pioneer research in the social sciences and is Turkey's first and only state university on this field. Among the university's primary aims is the publication of social sciences research that positively contributes to the international literature. A large number of research and application centers at ASBU are active for this purpose. ASBU is not a campus university outside the city, it is a city university that penetrates the city's tissue and veins, intertwined with the community, which is the natural laboratory of social sciences. Being a city university gives ASBU the opportunity to integrate into society and examine the dynamic structure of

society. ASBU carries out its education and research activities in buildings with high historical, cultural and aesthetic value in Ulus, one of the oldest districts of Ankara. The ASBU campus is located in historic buildings such as the first Prime Ministry Building of the Republic of Turkey, the tomb of Hacı Bayram Veli, the 2000-year-old archaeological Roman Baths of Ankara, the Monumentum Ancyranum and the historic Turkish Parliament Buildings. In this historical texture, the university intends to create educational and research environments using modern technology and to blend past and future in its structure. ASBU undergraduate and graduate programs are designed on the basis of the interdisciplinary approach to enable our students to be aware of the work in different disciplines. Our undergraduate and graduate programs allow students to take courses from different departments with a rich elective course pool and thus to deepen and study in their fields of interest. The medium of instruction in all of our programs is English. ASBU, which gives importance to multilingualism in education, provides students with opportunities to improve their language skills. ASBU students are not only able to acquire a high level of English, but are also particularly encouraged to learn a second foreign language. In our university, which gives the opportunity of one-to-one communication and interaction with instructors, it is aimed to develop the skills of our students such as speaking in front of an audience, creativity, critical thinking, teamwork and leadership. The course contents, which offer historical and theoretical perspectives, allow our students to analyse current events effectively. Students who wish to pursue their scientific curiosity and develop their interdisciplinary working skills are offered the opportunity to choose from a wide range of disciplines. In our university, there is a well-equipped academic staff who has taken postgraduate degrees from distinguished universities at home and abroad and who conducts international scientific projects. ASBU, which is very selective when forming its academic staff, is based on international standards in recruitment and evaluation processes. In this way, ASBU has brought together an internationally qualified, equipped and experienced academician group who carries out original projects and researches in different fields. In ASBU, students are seen as an active participant in the learning process. Our students are encouraged to take responsibility in projects, and they are promoted to learn the research processes in practice. Our university prepares all courses in accordance with the Bologna information package. ASBU provides its students with the opportunity of double major and minor undergraduate programs. Students who are allowed to take the courses offered by other related undergraduate programs become entitled to receive a Minor Certificate if they complete a minor program. Students who meet the requirements for a different undergraduate program are eligible for a Second Major Diploma. Our students have the opportunity to spend one semester or one academic year in European universities thanks to the Erasmus exchange program.

"George Brown College – Toronto, Canada Established in 1967, George Brown College is a public college with three campuses located in downtown Toronto, Canada. George Brown offers a wide variety of programs in arts and design, business, community services, early childhood education, construction and engineering technologies, health sciences, and hospitality, culinary arts and English for Academic purposes. Students from more than 120 countries have chosen George Brown College for their education. George

Brown offers more than 160 career-focused certificate, diploma, postgraduate and degree programs – one of the widest ranges of full-time college programs in Canada, with student curriculum shaped by industry to meet their specific needs. All of our programs include a work placement component which put students in actual jobs in their field of interest. The city and the College offer students excellent opportunities to gain valuable work experience with leading employers while attending college and after graduation. Our career-focused programs mean you will graduate with the academic credentials as well as the people and technical skills employers are looking for. At George Brown College, you can choose from a large number of programs which will provide you with the skills you need to succeed in the modern workplace. Our industry partners work with us to make sure that our programs are current and cutting edge, and that our students get insights and education not found in textbooks. All of this has resulted in the fact that George Brown College leads the Greater Toronto Area colleges in graduate employment rates at 92%. **E-Mail :** [audrone.rackauskiene@ktu.lt](mailto:audrone.rackauskiene@ktu.lt)

## Profile Description:

"Kaunas University of Technology (KTU) is one of the leading universities in the Baltics (according to 2018 QS World University Rankings, KTU is among 2.7% of Top Universities worldwide) covering many fields of study and closely working with international businesses, providing globally recognised degree certificate. Studies in the fields of technology,

**kaunas  
university of  
technology**

engineering, business and public management, computer science, arts, social sciences and humanities are offered at the university and scientific researches play a big role in the university's daily life. KTU is known for its linkages with business, leadership in scientific research, flexible interdisciplinary study programmes and unforgettable study experience, KTU is fast forwarding to becoming an internationally acknowledged main institution of higher education in the region. The University has 9 faculties, 8 institutes, 9 research centres, 23 student organisations, 12 dormitories, 7 art societies. It has a Sports Centre, which offers 20 sports classes. KTU offers 46 bachelor's and master's study programmes in English; all PhD studies are conducted in English; The University also provides joint study programmes in partnership with foreign universities (Dortmund, Florida, Valencia Universities) also double degree options, work placements, internships and career opportunities in global companies. KTU graduates work and acquire practical skills in NASA, Tesla, Google and other global corporations. Master studies at KTU are the first studies in Lithuania reacting to the changes in the needs of a new generation, the society and market, adapting to global trends and focusing on the development of individual competences. The Master+ model allows either to seek for perfection in one's discipline by choosing the Field Expert track, or to improve one's interdisciplinary skills by choosing the Interdisciplinary Expert track, which emphasizes managerial skills or various different competences that complement the chosen discipline and help to achieve a competitive advantage in one's career. Committed to supporting and promoting the most qualified applicants to its study programmes, KTU is pleased to offer several scholarship opportunities - free of charge Bachelor or Master studies for the candidates with outstanding results, fee discounts for full-time Bachelor and Master degree studies for the nationals of selected countries, different types of scholarships for the current students of KTU (Talent's, Incentive, Sponsor's, Social). Kaunas University of Technology has more than 300 Erasmus+ and bilateral agreements with the universities worldwide. KTU has been awarded the Higher Education Charter to participate in the Erasmus+ 2014–2020 programme, therefore students of KTU can spend 1-2 semesters at a higher education institution abroad with the assistance from Erasmus+ or mobility scholarship, they can also complete the mandatory, additional or postgraduate internship abroad and gain invaluable international experience. KTU has a very strong community of international students, organising themed and cultural events, parties or various gatherings, making sure that everybody has a good time. International Exchange Student Network (ESN) is an organisation which is devoted for international students, offering plenty of activities to choose from.

**Profile Description:**

Representing Georgian American University. Since 2005, the Georgian American University (GAU) serves to establish international standards of education, develop competitive professionals and successful individuals. GAU's team consists of highly qualified Georgian and foreign specialists. Experienced lecturers create a friendly atmosphere for students.

Professors of GAU belong to the small number of Georgian scientists whose scientific articles are published by international peer-reviewed impact-factor journals. Among GAU's foreign professors are scientists of the leading universities in the United States and Europe. Along with the lecturers, the students are also conducting research in GAU's research centers. GAU is distinguished with innovations, such as QUANTS (Quantitative Finance), first legal clinic in Georgia, the ultra-modern IT laboratory – GeoLab, professional English language programs; and the Spanish Language and Culture Center. The employment rate of GAU students and graduates increase annually. GAU has a Career Center that constantly provides students with information about internship programs and vacancies in the market, and manages trainings and employment forums together with partner organizations. GAU offers flexible schedules for the 3rd and 4th year students. In addition to this, students are given the possibility of internships and employment in different structures at GAU. GAU offers to the students exchange programs with different universities around the world. The number of European and US leading universities, as well as the number of international organizations with which GAU cooperates, continuously increase. As a result, students have the opportunity to participate in exchange programs, obtain a scholarship and share not only the experience of international education and global competitiveness, but also diverse cultural and social relationships. GAU students plan and implement educational, sports, entertainment and charitable projects. Considering the interests of the students, GAU chooses speakers for public lectures and the guests of the university are opinion leaders of different spheres, experts and people which are interesting for the youth. The GAUBand and the GAUtheatre are integral parts of diverse student life. In terms of social responsibility, GAU cares for vulnerable groups by providing them with legal, material-logistical support and provides volunteering activities for the students. Business School "With the knowledge and broad and profound vision of business processes acquired at GAU, our graduates become creative, competitive and development-oriented specialists" – Dean Teimuraz Toronjadze GAU Business School was founded in 2005, with consideration of the best international practices and the local business environment. Programs and teaching methods are dynamic. They are fully compatible with general development trends and technological progress. The close link between GAU Business School and US leading universities show that our program meets the standards of the relevant programs of American Universities. These approaches have significantly defined GAU Business School's academic identity and philosophy. Bachelor Program (BBA) • Management • Marketing • Finance • Quantitative Finance (Quants) MAster degree Program (MBA) • Management • Marketing • Finance • Quantitative Finance (Quants) School of Medicine "The goal of the MD program is to train knowledgeable, competitive doctors committed to life-long learning in accordance with international standards set by World Federation for Medical Education" – Dean Ilia Meskhi The Medical School in Georgian American University was established in 2017. The undergraduate MD curriculum at GAU MD School functions as a 6-year (360 ECTS) medical program designed to meet the challenges of training competitive and highly qualified doctors for the 21st century. Main Features of the GAU MD Curriculum are: • Partly integrated core curriculum with both vertical and horizontal integration; • A body-system approach – integrated system-based courses address the major body systems; • Spiral model of the curriculum that allows reviewing key basic topics in more depth; • Relevant assessment methods based on Miller's pyramid model including traditional (oral/written) examinations, MCQ testing, OSCE (Objective structures Clinical Examination) and portfolio; • Student-oriented approach with increasing role of independent study; • Early exposure to clinical settings and mastering clinical skills throughout the 6 years; • Longitudinal research skills teaching; • Social and public health including Medical Ethics, Behavioral Medicine, Biostatistics, Epidemiology, Evidence-based Medicine, Health Law, Health care management; • Meeting requirements sent out in Global standards of undergraduate medical education of World Federation for Medical Education (WFME). • Case-based learning and increasing number of electives over the years of study. Clinical training components of the study program are implemented through agreements with a number of medical clinics and hospitals.

**Profile Description:**

BEHIND EVERY SUCCESS STORY LIES A DREAM, AN IDEAL...

The success story of the International Balkan University began in 2006. The Foundation for Education and Culture "USKUP" was founded by a group of intellectuals and academicians (scholars) to establish the INTERNATIONAL BALKAN UNIVERSITY as a cultural bridge between the Balkans and Turkey, with the intent of increasing the quality level of human capital in the region. As a provider of high-quality education, International Balkan University has adopted the mission of educating self-confident, multidimensional, socially responsible and globally competitive individuals. In addition, the university produces high-quality scientific research that will contribute to technological and economic development in the region. With this mission in mind, International Balkan University aims to become a renowned international educational institution that sees cultural diversity as an asset, and that contributes to the development and stability of the Balkans by producing the best professional individuals who are ready to compete in the workforce.

PUENTE EDUCATION AND CAREER CONSALTING Puente Education and Career Consulting is exclusive student recruitment partner of International Balkan University worldwide.
